

Wanniassa Preschool

A quality education within a caring, safe and secure learning environment.

We have two preschool sessions and a Koori preschool session. The Preschool program uses inquiry learning as the major teaching tool. The Preschool program covers all areas of development: social, emotional, physical and intellectual. The

Preschool program is based on the Early Years Learning Framework, *Being, Belonging and Becoming* and complies with the National Quality Standards.

Children's interests are incorporated into the program. The Preschool curriculum is designed to develop children's self-esteem and positive attitudes towards learning. Our school has a successful buddies program which prepares students well for their transition through Wanniassa School.
